

PHONE AND CALLS

OneVoice: Save on your line rental and calls

- 1p per minute landline calls
- 2p per minute International
- Save 6% on your line rental
- Per second billing
- No call connection charge
- Same quality - better service.

OneVoice from CorNetworks is a comprehensive line rental and call service for businesses who want to save money and get a better overall service and enjoy fairer pricing - savings of up to 95% available...

The savings we receive by bulk buying wholesale from BT and Openreach allow us to offer your business cheaper line rental, significant savings on calls and just one point of contact for faults or new orders - with our award-winning support.

Let's face it, many of us make lots of short outgoing calls, 20 seconds, 40 seconds or a few minutes. Because we charge the UK's lowest rates for calls, per second and with no connection charge - OneVoice can save your business over 50% on average.

Huge savings, same product

OneVoice is significantly cheaper for average business calls, and up to 90% cheaper on international calls. Mobiles are up to 75% cheaper too. Per-second billing and no connection charge, combined with some of the cheapest rates in the UK.

Call Type and Duration	BT's best rates at 29/9/13			OneVoice (no contract)	Min % Savings
	12 Month	24 Months	No Contract		
20 second UK landline call	7p	4p	26.5p	1p	75%
2.5 minute UK landline call	18p	7p	49.5p	2.5p	64%
6 minute UK landline call	18p	7p	84p	6p	14%
30 second UK Mobile call	15p	9p	27p	5p	44%
International USA (2 mins)	18p	15p	39p	4p	73%

Full range of services

We're able to offer the full range of PSTN and ISDN services, included new lines installs, engineering works, multi-line and all WLR3 features.

Free transfer - no change of number or service

Moving your lines to us is very easy - we handle everything for you and your lines transfer over like-for-like - with no interruption to service at all.

CorNetworks is an established and award winning ISP who's aim is to bring high-tech and enterprise-grade services to small and medium-sized businesses. With our own Tier 2 network spanning the globe, our own 24 hour support and operation center and a complimentary range of skills in-house including networking, telephony, programming and web engineering department. All of these combine to form something we think is unique: A well connected ISP that has the tools and expertise to deliver something truly remarkable - high-specification services on budget. CorNetworks provides a full range of internet and telephony services including hosting, telephony, email, data storage, network consultancy and web engineering.

- ▶ No long contracts
